EMDR INTEGRATIVE GROUP TREATMENT PROTOCOL (EMDR-IGTP) AND EMDR PROTOCOL FOR RECENT CRITICAL INCIDENTS (EMDR-PRECI)

Early EMDR therapy intervention has a natural place in the disaster mental health continuum of care context and may be key after everyday life traumatic events as a brief treatment modality. Use of early EMDR therapy can result in the adaptive processing of trauma memories, the prevention of the accumulation of negative associated links, and the reduction of suffering and later complications. Thus, it promotes mental health and resilience, especially during ongoing traumatic stress. This workshop will focus on integrating into clinical practice two EMDR therapy protocols specially designed for early intervention and ongoing traumatic stress that are part of the United Nations Institute for Training and Research (UNITAR) course for Peace Operations Personnel and Humanitarian Aid Workers. Within the context of Psycho-Oncology this protocols addresses one of the major psychological dimension of cancer: the ongoing cancer-related stress responses with trauma-related disorders.

In the EMDR Integrative Group Treatment Protocol (EMDR-IGTP) provides individual EMDR therapy in a group setting, ensuring that many individuals can be treated simultaneously. Small or large groups can be made up of patients who have been through the same type of trauma (sexual abuse, severe interpersonal violence), experience (disaster, refugees, shooting, terrorist attacks), or diverse trauma histories with unifying circumstance (severe or chronic illness, domestic violence) in common. The effectiveness of this protocol has been documented around the world for large and small groups of adult, adolescent and child participants, with multiple case reports, field studies, randomized controlled trials and one meta-analysis.

The EMDR Protocol for Recent Critical Incidents and Ongoing Traumatic Stress (EMDR-PRECI) was developed in the field to treat critical incidents that were related to stressful events that continued for an extended period and where there is not a post-trauma safety period for memory consolidation. There is evidence supporting the efficacy of this protocol in reducing symptoms of posttraumatic stress in adults and maintaining those effects despite ongoing threat and danger in a disaster mental health continuum of post-incident care context, as an early intervention for traumatized first responders working after a human massacre, and as an early intervention for technological disaster survivors. It appears that EMDR-PRECI helped to prevent the development of chronic PTSD and to increase psychological and emotional resilience.

WORKSHOP OBJECTIVES

- Describe the rationale and integrate the use of the EMDR-IGTP for Children.
- Describe the rationale and integrate the use of the EMDR-IGTP Adapted for Adolescents and Adults Living with Ongoing Traumatic Stress.
- Describe the rationale and integrate the use of the EMDR-PRECI.

WORKSHOP LOCATION

DoubleTree Salt Lake City Airport Hotel
5151 Wiley Post Way
Salt Lake City, UT 84116
801-539-1515

WORKSHOP AGENDA

Friday-April 6, 2018

8:00-8:30am	Registration/Coffee Service
8:30-5:30pm	Workshop
12:00-1:30pm	Lunch Break

CONTINUING EDUCATION

7 Professional & EMDRIA CE CREDITS

Attendance at entire workshop required to receive credit.

APA: EMDR Institute is approved by the American Psychological Association to offer continuing education for psychologists. EMDR Institute maintains responsibility for this program and its contents.

NBCC: EMDR Institute has been approved by NBCC as an Approved Continuing Education Provider, ACEP No. 5558. Programs that do not qualify for NBCC credit are clearly identified. EMDR Institute is solely responsible for all aspects of the programs.

RN: EMDR Institute is a provider approved by the California Board of Registered Nursing, Provider Number 9755.

SW: EMDR Institute, provider #1206, is an approved provider for SW continuing education by the Assoc of SW Boards (ASWB) www.aswb.org, through the Approved Continuing Education (ACE) program. EMDR Institute maintains responsibility for the program. Social workers participating in this course will receive 7 ce hours.

EMDRIA: EMDRIA Credit Provider #99003 is approved by EMDRIA to offer EMDRIA credit for this program #99003. EMDR Institute maintains responsibility for the program.

This workshop is held in facilities in accordance with the Americans with Disabilities Act. Please notify the EMDR Institute and the hotel if special accommodations are required.

PRESENTER

Ignacio Jarero, Ph.D., Ed.D., who specializes in Humanitarian Trauma Recovery and Research Programs on EMDR therapy, has conducted seminars and workshops around the world with participants of 65 different countries, and since 1998 has provided field services in Latin America, the Caribbean, Spain and South Asia to natural or human-provoked disaster victims, family members of those deceased, and first responders.

Dr. Jarero is an EMDR Institute & EMDR-Iberoamerica Senior Trainer of Trainers and has received the EMDR-Iberoamerica Francine Shapiro Award, the EMDRIA's Outstanding Research Award, the International Critical Incident Stress Foundation International Crisis Response Leadership Award, the EMDR Colombia Jaibaná Award for Humanitarian Work, and the Argentinean Society of Psychotrauma (ISTSS Affiliate) Psychotrauma Trajectory Award.

Dr. Jarero is EMDR Mexico Co-Founder, Latin American & Caribbean Foundation for Psychological Trauma Research (Francine Shapiro Award Winner), Founder & President, International Center of Psychotraumatology, Founder & President, Iberoamerican Journal of Psychotraumatology and Dissociation, Co-Founder & Editor in Chief, and the Mexican Association for Mental Health Support in Crisis (AMAMECRISIS, NGO), Founder & President.

WORKSHOP REQUIREMENTS

Completion of EMDRIA approved
EMDR Part 1/Weekend 1 Training

Current research is limited to the application
of EMDR to trauma-related disorders.
